

**ANGLES**

Name : ..... Class : ..... Score .....

Write out in the form of equations and find the angles in the problems.  
Complementary angles = Two angles that sum up to 90 degrees, Supplementary angles = Two angles which sum up to 180 degrees.

1. The complement of a  $32^\circ$  angle \_\_\_\_\_
2. The supplement of a  $104^\circ$  angle \_\_\_\_\_
3. The supplement of an  $83^\circ$  angle \_\_\_\_\_
4. The complement of a  $12^\circ$  angle \_\_\_\_\_
5. The complement of a  $45^\circ$  angle \_\_\_\_\_
6. The supplement of a  $70^\circ$  angle \_\_\_\_\_
7. The supplement of a  $100^\circ$  angle \_\_\_\_\_

Write out in the form of equations and find the angles in the problems.  
Complementary angles = Two angles that sum up to 90 degrees, Supplementary angles = Two angles which sum up to 180 degrees.

1. The complement of a  $32^\circ$  angle \_\_\_\_\_  $58^\circ$

2. The supplement of a  $104^\circ$  angle \_\_\_\_\_  $76^\circ$

3. The supplement of an  $83^\circ$  angle \_\_\_\_\_  $97^\circ$

4. The complement of a  $12^\circ$  angle \_\_\_\_\_  $78^\circ$

5. The complement of a  $45^\circ$  angle \_\_\_\_\_  $45^\circ$

6. The supplement of a  $70^\circ$  angle \_\_\_\_\_  $110^\circ$

7. The supplement of a  $100^\circ$  angle \_\_\_\_\_  $80^\circ$
